

# NO MORE PLASTIC BAGS IN YOUR RECYCLING BIN

## THINK BEFORE YOU THROW®

Plastic bags should never be placed in your Recycling bin! Any material within a plastic bag is automatically labeled contaminated and will not be recycled (#plasticbagproblems). Help do your part by keeping your recycling **Empty, Clean, Dry, and Loose**.

Instead, carry your Recyclables out to your bin using a **reusable bin, cardboard box, or paper bag**.

## FOLLOW THE 4 PREP STEPS!

Empty

Clean

Dry

Loose

**AMERICAN**  
DISPOSAL SERVICES

July 25, 2018

**ATTENTION ALL CUSTOMERS  
URGENT NOTICE!**

Due to the issues with recycling and contamination that have been occurring in the US recently, American Disposal has been informed by the area recycle processing facilities that effective immediately PLASTIC BAGS will no longer be accepted in any recycle containers.

This includes ALL plastic bags, not just the recycling of bags, but the ACTUAL BAGS that people use to put their recycling in to carry to the recycle bins. Going forward, all recyclables will need to be either loose, or contained in paper bags or cardboard.

This new guideline affects everyone who disposes of recycling. Unfortunately, we have no choice to comply with these guidelines, as contaminated loads will be rejected at the facility. Therefore, we need your help in order to affect these changes.

Please inform anyone else around you NOT to place ANY plastic bags in ANY Single Stream or other Recycle containers. Doing so will result in a non-pick up and will require either removal of the plastic bags, or to have the container dumped as trash the next day for an additional fee.

We realize that this is not going to be easy, but we need your help. The attached information is designed to help you get the message out to everyone who uses your containers. Please distribute immediately, and please take measures to ensure that your containers are free from plastic bags so we may dump them.

If you have any questions, please contact your account manager, or our office at [info@adsimail.com](mailto:info@adsimail.com) or **571-292-5512**.

Sincerely,

**American Disposal Residential Services  
Recycling Compliance Team**

# NO MÁS BOLSAS DE PLÁSTICO

## EN EL CONTENEDOR DE RECICLAJE

### THINKBEFORE YOUTHROW®

¡Nunca debe poner bolsas de plástico en el contenedor de reciclaje!  
Cualquier material con una bolsa de plástico se etiqueta automáticamente  
contaminado y no se reciclará (#plasticbagproblems). Contribuya  
manteniendo el reciclaje vacío, limpio, seco y suelto.

En lugar de usar bolsas de plástico, lleve los  
reciclables al contenedor en un recipiente  
reutilizable, una caja de cartón o una bolsa  
de papel.

### ¡SIGA LOS 4 PASOS DE PREPARACIÓN!

Vacío

Limpio

Seco

Suelto
